Instead of having the characters not shadowland at all, making the break in their relationship slightly more believable for those around them, Damen conveniently comes up with a thin energy shield that protects the skin from contact. But that's where the book ends.

Why didn't I stop? Then Ever makes another stupid mistake by changing her whiny, over dramatic, bitchy best friend Haven into an Immortal.

She ends up at Roman's house. This series has ended, I already did the unspeakable and just read the last two pages of the final book and It's like the author shadowland watching soaps when she decided to make him and when she made his motivations and actions. Flustered again, Ever goes to visit Haven at work, but she isn't there.

Sorry, that person's shelf is private.

Lists with This Book. Can't wait until this comes out. Thanks for telling us about the problem. It was hard to put down once you have started it, but once it is finished it doesn't leave you fully satisfied. What a waste of time.

I'm not alysonn for comedy purposes. I can't take it anymore! If someone "wants something" from you, it's always sex. Is karma playing a role?

Done with the endless faux sexual tension and the strung out destined to be together soul-mate crap. Let's stay optimistic and hope that Ever will come to her senses in the next installment, because otherwise I think I'll wlyson going to have to slap her, and that Damen is right, quote: Jude was clearly a better choice for Ever! I dunno, I lost count.

Ever feels guilty the entire book So this book begins with Ever telling Damen that they cannot touch or he'll die.

Haven is a female dog. It provides humor and warmth and I was very happy to see Sabine happy. One in Blue Moon, the twins are also involved with finding the solution.

Since Jude is a nice, friendly, non-angsty boy, Ever obviously won't end up with him.

Shadowland by Alyson Noel.

Back in the day, when I was but a wee twelve-year-old, my teacher told me to review the last book I read. Haven has been noticing the strangeness between Ever and Damen and vows to figure it out. Romy and Rayne show up at Ever's before Miles' going away party.

There are SO many things wrong with this book I am gettin yay! Instead of the owner, she finds Jude, the owner's "grandson. Ever was a bit of a muppet in this book, and continued to let Roman walk all over her again. I got neither an interesting plot or interesting characters in this book.

She's so shadowlad that her friends are barely on her radar. Read Maggie Stiefvater's books, at least her female leads aren't dumb as rocks. Damen removes himself from the situation while she figures things out and in the meantime, she accidentally aligns herself with Roman when he poisons noek best friend, Haven, and Ever must decide whether to save Haven by making her immortal or letting her die but getting the antidote that they need.

Ever was not as annoying as she was in the previous book, Blue Moon.

Shadowland – Paranormal Book Summaries.

So she casts a spell to make Roman give her the antidote. She goes to Ava's old house and finds that the twins, Romy and Rayne, have been stuck in the real world since Damen got the tainted antidote.

It seems like every time I turned the page, one of them was sending a red tulip as an apology. Ever and Damen talk about art and Damen explains to Ever about constantly moving and watching friends die.

Ever can't figure it out. Back home, Ever's aunt, Sabine, wants her to get a job, and there is joel internship opening at her firm. She is reluctant, but seems to agree. I got neither an interesting plot or interesting characters in this book.

Damen tells her that Roman is a liar and can't be trusted. Dec 28, Megan rated it it was ok. I just can't with this series anymore to be honest Dec 05, Gelo Salinio rated it liked it Shelves: Which is what I wish I had done with these audiobooks! I have no words for Ever, she annoys me tremendously in this book. All she cares about is hooking up with Damen. Roman showed up and then took Haven away with him. Ever starts her first day. I just find myself being frustrated more than finding actual enjoyment from the book. My favorite was the time she shsdowland to Roman and he blackmailed her saying he'd tell Damen. Ever told the teacher, Munoz, about her powers, and now she's afraid that her Sabine will find out.

It seems fragmented and out of place. Crazy for Young A Later that night, Ever has a nightmare and goes for a run.

No one can call Ever out on her shit and have her listen. Ultimately, she decides to save Haven and make her immortal another example to prove how much Ever supposedly "loves" her friends.

Ever does stupid things. The go and as the twins are looking at the book, Jude shows up. Romy and Rayne, who are far more experienced, tell Ever that she's made a huge mistake. If your boyfriend trying to be more responsible is that much of a problem, he should dump your ass.

She takes them to Damen's house and he becomes like a parent to them. Roman has the potential to be a decent bad guy, but doesn't seem to be around often enough for it.

I'm sorry, but what cure are you talking about? Somewhere along she also ditches not only her friends but also her common sense because she trusts the freaking bad guy of the book instead of the good guys, and as a result dooms both her and Damen's future under the sheets forever.

Preview — Shadowland by Alyson Noel. The story becomes even more ridiculous. She goes to work where Jude tells her that he has been seeing Riley. She spends a good bit of time complaining because Damen isn't manifesting material things anymore and dressing nicely.

Damen is still a flat, boring character. I hated the whole thing with Roman and Drina, seriously.

Shadowland (novel)

Valborg is a holiday-type-thingy in Shadowland where we basically light huge ass fires to welcome spring and I'm going to throw it into one of the fires I'm going to. Damen decides to put their relationship on hold for the summer so Ever can decide if she wants to be with Jude instead.

My writing teacher said that we should care about the characters, and I don't care about Ever.

Shadowland Book Summary and Study Guide.

Shadowland is book 3 in the Immortal series featuring an immortal girl named Ever on a quest to find an antidote to save her boyfriend and uncover more secrets about her past. We left off in Blue Moon with Ever Bloom and her boyfriend Damen cursed by their long time enemy, Roman. Roman tricked Ever into putting her blood in an elixir that Damen drinks for his immortality thinking it would save him from dying, but instead it caused Ever to make Damen to become allergic to Ever's DNA. Now the two lovebirds can't touch because if they do Damen will immediately die and be sent to the dark place called Shadowland. Click here to see the rest of this review.

Best part of story, including ending: I don't hate the story, but I'm growing tired of the constant struggle for these two to be together and the love triangles involved. Jude was clearly a better choice for Ever!

Best scene in story: My favorite scene was when Damen and Ever are at the art museum because it was finally revealed exactly what the connection between Ever and Jude was all along.

Opinion about the main character: Ever is immature and makes impulsive decisions that always result in the worst outcome. If she would stop for a moment to think it through, her life may be a bit better, but after three books she still doesn't learn this lesson!

Quotes from Shadowland.

"While we may judge things as good or bad, karma doesn't. It's a simple case of like gets like, the ultimate balancing act, nothing more, nothing less. And if you're determined to fix every situation you deem as bad, or difficult, or somehow unsavory, then you rob the person of their own chance to fix it, learn from it, or even grow from it. Some things, no matter how painful, happen for a reason. A reason you or I may not be able to grasp at first sight, not without knowing a person's entire life story—their cumulative past. And to just barge in and interfere, no matter how well-intentioned, would be akin to robbing them of their journey. Something that's better not done." — Alyson Noel, quote from Shadowland.

"He looks at me, the light in his eyes fractures into millions of bits—a kaleidoscope of darkness that may never be fixed." — Alyson Noel, quote from Shadowland.

"So you've made a friend. How sad for them." — Alyson Noel, quote from Shadowland.

"Where's your car? Miles asks, glancing at him as he slams his door shut and slings his backpack over his shoulder. "And what's up with your hand?"

"I got rid of it," Damen says, gaze fixed on mine. Then glancing at Miles and seeing his expression he adds, "The car, not the hand."

"Did you trade it in?" I ask, but only because Miles is listening. [.]

He shakes his head and walks me to the gate, smiling as he says, "No, I just dropped off on the side of the road, key in the ignition, engine running."

"Excuse me ?!" Miles yelps. "You mean to tell me that you left your shiny, black, BMW M6 Coupe—by the side of the road ?"

But that's a hundred-thousand-dollar car!" Miles gasps as his face turns bright red.

"A hundreds and ten ." Damen laughs. "Don't forget, it was fully customized and loaded with options."

Miles stares at him, eyes practically bugging out of his head, unable to comprehend how anyone could do such a thing— why anyone would do such a thing. "Um, okay, so let me get this straight—you just woke up and decided— Hey, what the hell? I think I'll just dump my ridiculously expensive luxury car by the side of the road—WHERE JUST ANYONE CAN TAKE IT ?"

Damen shrugs. "Pretty much."

"Because in case you haven't noticed," Miles says, practically hyperventilating now. "Some of us are a little car deprived . Some of us were born with parents so cruel and unusual they're forced to rely on the kindness of friends for the rest of their lives!"

"Sorry." Damen shrugs. "Guess I hadn't thought about that. Though if it makes you feel any better, it was all for a very good cause." — Alyson Noel, quote from Shadowland.

"But while everything around us seems to be in a constant state of flux- people at their very core remained exactly the same. All of us still seeking the things we've sought all along—shelter, food, love, greater meaning—" He shakes his head. "A quest that's immune to evolution." — Alyson Noel, quote from Shadowland.

"I'm after something far more esoteric than a virginal shag. Though, if you'd like, darlin', I'm certainly up for the task." — Alyson Noel, quote from *Shadowland*.

"Didn't I promise I'd always look after you and keep you from harm?" — Alyson Noel, quote from *Shadowland*.

"But my attention's elsewhere, drawn to that warm wonderful pull, the familiar loving essence that only belongs to one person—only belongs to him—

Watching as Damen cuts through the water, board tucked under his arm, body so sculpted, so bronzed, Rembrandt would weep. Water sluicing behind him like a hot knife through butter, cleanly, fluidly, as though parting the sea.

My lips part, desperate to speak, to call out his name and bring him back to me. But just as I'm about to, my eyes meet his and I see what he sees: me—hair tangled and wet—clothes twisted and clinging—frolicking in the ocean on a hot sunny day with Jude's tanned strong arms still wrapped around me.

I release myself from Jude's grip, but it's too late. Damen's already seen me.

Already moved on.

Leaving me hollow, breathless, as I watch him retreat.

No tulips, no telepathic message, just a sad, empty void left behind in his place." — Alyson Noel, quote from *Shadowland*.

"Nothing can rival the incredible rush the act of creation brings. Of crafting something you know is destined to be great for all time." — Alyson Noel, quote from *Shadowland*.

"I mean, yeah, maybe our fate is sometimes fixed and unchangeable, but there are other times when its shaped purely by the actions we take." — Alyson Noel, quote from *Shadowland*.

"You can't escape karma . It is what it is. It doesn't judge, it's neither good nor bad like most people think. It's the result of all the actions, positive and negative--a constant balancing act of events--cause and effect--tit for tat--reaping and sowing--what goes around comes around . However you phrase it, it's the same in the end." — Alyson Noel, quote from *Shadowland*.

"To develop a self one must exercise choice and learn from the consequences of those choices; if the only thing you are taught is to comply, you have little way of knowing what you like and want." — Bruce D. Perry, quote from *The Boy Who Was Raised as a Dog: And Other Stories from a Child Psychiatrist's Notebook*.

"Why are you so eager, anyway? We just met this girl—this Kat. What makes her so special that you're already thinking of claiming her?" Lock ran a hand through his dark blond hair. "Because she is, as you said, gorgeous. But it isn't just that—she's special, Deep. Couldn't you feel it when you spoke to her?" "I didn't feel a damn thing and there's no way you could have either," Deep growled. "Our minds aren't even aligned with hers—we haven't shared a single dream." "But we could." Lock glared at his twin in frustration. Deep had always been a pessimist, but ever since Miranda he'd closed himself off almost entirely. It was like he thought if he didn't allow himself to feel anything he could never be hurt again. "Kat has potential," he told his twin. "If you don't scare her off, that is." Deep narrowed his eyes. "Define potential." "She's beautiful, single, and she can stand up to you. The way she slapped you when you scented her..." Lock shook his head, laughing softly. "If that's not potential, I don't know what is." "She does have spirit, I'll give you that." Deep smiled grudgingly and Lock felt something loosen in his heart. He seldom saw a genuine smile on his twin's face anymore. "But Brother," Deep continued, "If you don't want to scare her off, you shouldn't have agreed to let her act as our focus. If there's anything more frightening than having two males inside her body, it would have to be having two males inside her mind. She'll have to have a will of iron to withstand our joining." Lock nodded, feeling troubled. "You're right. But you saw her, Deep—she wouldn't be denied." He went and dropped down onto the extra long couch which was standard for all Twin Kindred suites. "And she's right—she may make the difference between finding Sylvan in time or losing him and the Earth female he was with forever." "True." Deep seated himself beside his twin and put an arm over the other man's shoulders in a rare gesture of affection. "Take heart, Brother. If she survives the joining and still comes back for more, I'll admit she has potential." "Very" — Evangeline Anderson, quote from *Hunted*.

"Tobie. Unless I'm giving off steam, behave normally. I remember what to do. One foot in front of the other, but not both at the same time unless I'm a robin." — Dorothy Dunnett, quote from *The Spring of the Ram*.

"Always be civil to the girls, you never know who they may marry' is a aphorism which has saved many an English spinster from being treated like an Indian widow." — Nancy Mitford, quote from *The Pursuit of Love & Love in a Cold Climate*.
